

PLANET CHELTENHAM

CLIMATE CHANGEMAKERS

Do you want to make real change in your community? Do you have an idea that would make your part of town better for people and planet? Would you like to be part of something bigger, connecting and learning from others along the way?

We're looking for people in Cheltenham who are well connected to their communities to be part of an exciting pilot climate action project. You don't need to be a climate expert, you only need to know your patch well, and have an appetite for making things happen!

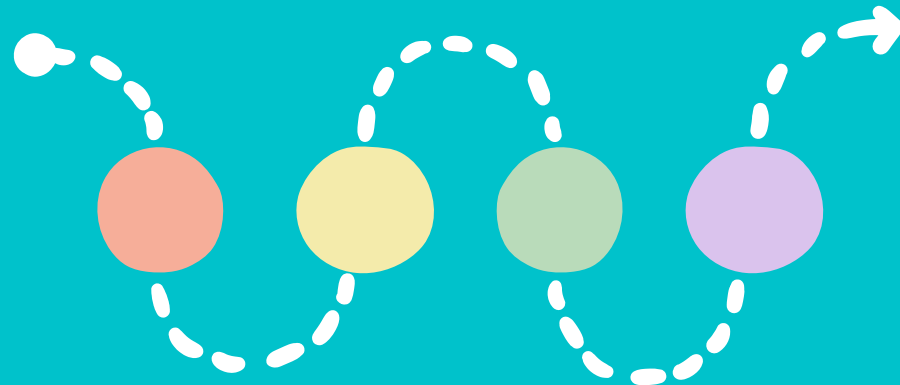

Can you commit to most of the key dates for our learning and doing journey? Are you 18 or over?

If so, we'd love to hear from you - apply by the end of the day **22nd March 2023**
